CALL FOR PAPERS

The Eleventh IFIP/IEEE International Symposium on Integrated Network Management (IM 2009) will be held on 1 – 5 June 2009 at Columbia University in New York, New York, USA. The IM series of conferences has been held in odd-numbered years since 1989 (taking turns with its sibling conference NOMS), and has established itself as the main venue for original research in the area of management, operations and control of networks, networking services, networked applications, and distributed systems. The symposium is sponsored by the International Federation for Information Processing (IFIP) Working Group 6.6 on Management of Networks and Distributed Systems, and by the IEEE Communications Society Technical Committee on Network Operations and Management (CNOM).

Featuring:

- Technical Sessions
- Invited and Keynote Speakers
- Application sessions
- Panels
- Birds-of-a-feather sessions
- Tutorials
- Workshops
- Industrial experience track

Authors are invited to submit original contributions in PDF format through the IM 2009 web site. Papers must be written in English. Only original papers that have not been published or submitted for publication elsewhere can be submitted. If accepted, the maximum length of each paper will be 10 printed pages.

Topics of interest that will be given special attention include:

- Management paradigms, theories and models
- Role of virtualization in network and systems management
- Architectures, methods and enabling technologies
- Service engineering and operational challenges
- Organizational aspects of IT Service management
- Autonomic computing and self-management
